City Council Memorializes Legislature; Opposes County Interference in Local Affairs; People Can Govern Themselves

City council went on record last evening as opposing the bill now before the legislature which provides for county wide option, repealing the present segregation act under which each municipality handles its own case so far as the saloon question goes. The anti-saloon party assert that the county as a whole is dry, and that if the present bill becomes a law it will mean the closing of every saloon in the county.

The position of the council in the matter is clearly set forth in the following resolution which was adopted yesterday and will be presented to the legislature as a memorial.

Whereas, It has been brought to the attention of the common council of the city of Phoenix that a bill now pending for the senate and house of representatives of the legislature of the state of Arizona, would in effect repeal the present laws of the state of Arizona permitting the votes cast at any election at any incorporated city or town in the state of Arizona on any local option election being counted separate from the votes cast at any such election in so far as said election effects any such incorporated city or town, and

Whereas, the common council of the city of Phoenix feel that in justice to the citizens and taxpayers of the city of Phoenix, that in matters purely affecting local affairs of said city, the citizens and taxpayers of said city should have their voice in such matters, adhering to the doctrine that in all such matters distinctly of local nature, that the people resident therein and bearing the burdens of government thereof should control, and not non-resident and non-taxpayers, and, as the governing body of the city of Phoenix, we present the idea of any person, merely because he happened to be a resident of the county of Maricopa, although possibly residing many miles distant from the city of Phoenix, knowing, or, worse, having no interest of a pecuniary nature or otherwise in our local affairs, needs or conditions, dictating to the people of this city how they should conduct their government, and

Whereas, the common council of Phoenix believe that in justice to the city of Phoenix and its governmental welfare, that it should take this means of expressing its opposition to county control of its local affairs.

Now, therefore, the common council of the city of Phoenix do resolve as follows:

That it is the sense of this body that it is unqualifiedly opposed to any provision of law which in any manner extends the control by counties of matters purely affecting local affairs of incorporated cities and towns.

Be it therefore resolved, That a copy of this resolution be delivered by the city recorder to the president of the senate and the speaker of the house of representatives of the state of Arizona, now in session at the state capital in this city, with the respectful request that same may have the immediate and favorable consideration of said legislative body.

Passed by the common council of Phoenix this 26th day of April, 1912.

LLOYD B. CHRISTY,
Mayor.

Attest:
FRANK THOMAS,
City Recorder.
